

Grant Writing

Some organizations have the luxury of employing a full-time grant writer. If you're not one of those organizations, we can help!

DBD Group's grant writing staff can help you with grant proposals at the local, state or federal level. We have successfully helped our clients secure large gifts from foundations to support programs and fund new facilities.

Grant Writing Services

- **Grant Proposal Development and Writing:**
Our grant writers create compelling cases for your capital, program, and operating needs.
- **Letters of Intent and Inquiry:**
We'll set you up for success with this critical first step in presenting your organization to a foundation or corporation.
- **Foundation and Corporate Research:**
We'll help you identify and prioritize the local, state, and national funding sources with the greatest potential for your organization.
- **Government Funding:**
DBD Group is familiar with the resources and opportunities available through federal and state funding sources.
- **Grants Staffing:**
We offer ongoing or interim grant staffing through a monthly retainer.

Quick Starts Grants Package

Not sure where to start? Consider a Quick-Start Grant Package, which includes:

- **Foundation Scan of 10 local and national foundations/corporate foundations** that have the best potential to be a strong match for your organization. The report ranks and prioritizes those foundations you may want to move to the top of your list. A broader listing of up to 100 other funding opportunities will also be included.
- **Phone Consultation** to review the Foundation Scan and recommendations as to who your organization's top three prospect foundations might be along with manageable next steps to increase your success rate.
- **Add-on options** include assistance in developing or reviewing your grant applications. Often these can become templates that you can use on your own as a starting point with other grant applications.
